Notification.

The 25th March 1857.

With the sanction of the Governor General of India in Council, it is hereby declared that the Port of Rangoon, and the navigable River and Channels leading to that Port, are subject to Act No. XXII. of 1855.

The limits of the said Port of Rangoon are as follows :—

To the West.—A line drawn South from the boundary pillar at Kemondine Point across the Rangoon River to the boundary pillar on the opposite bank.

To the East.—A line drawn from the point of land between the Pazoondoung Creek and the Pegu River to the boundary pillar at the point on the Dalla Shore called Dway-ngoo.

So much of the Pazoondoung Creek as lies South of a line drawn from a pillar at the East end of Kyeezeik village on the Eastern bank of the said Creek to a pillar opposite to it on the Western bank.

The limits of the said Port include to the North and South so much of the Rangoon River and of the shores thereof, and so much of the Pazoondoung Creek and the shores thereof as are within fifty yards of high-water mark spring tides.

The limits of the navigable River and Channels leading to the said Port, made subject to the said Act, are as follows :—

To the North.—The Port of Rangoon as above defined.

To the South.—A line drawn East and West from the Light Ship.

All parts of the Rangoon River between the said limits and below high water line at spring tides are subject to the said Act.

PORT RULES.

With the sanction of the Governor General of India in Council, the following Port Rules have been made and are hereby promulgated for general information and guidance :—

I. No vessel, if above 200 tons, shall enter within the limits of the Port of Rangoon, or move from one place to another within the Port, between sun-set and sun-rise, without the special permission of the Master Attendant.

II. The Commanders of all vessels arriving at the Port of Rangoon are desired to enter correctly

in the columns of the Report Book of the Master Attendant, as soon as presented to them, the information therein required regarding their vessels. They will also report in writing to the Master Attendant, twenty-four hours before their departure, the particulars noted in the form appended hereto.

III. All Commanders of vessels arriving at Rangoon shall anchor in such a position as the Master Attendant or his Assistant shall direct. All vessels above 100 tons burthen shall moor with two bower anchors and 30 fathoms of a Cable each way; and shall not move from their position without a Pilot, except with the express permission of the same authority.

IV. All Commanders of vessels shall have their jib and driver-booms rigged in when required by the Master Attendant, and shall strike their yards and masts if required to do so by, or by order of the same Officer.

V. Every ship or vessel within the Port of Rangoon shall remove any anchor or spar or other substance projecting from her side when required to do so by the Master Attendant, or other Officer of the Port.

VI. The Commanders of all vessels entering the Port of Rangoon with ballast on board shall, without delay, send to the Master Attendant a report in writing, stating the description of ballast on board, the quantity in tons, and the Port of shipment. Application must be made by the Commander to the Master Attendant for permission to tranship or land ballast, and no ballast shall be transhipped or landed except under the sanction of the Master Attendant, and only at such Stations as he shall direct.

VII. A free channel of 240 yards width is to be kept for ships moving up or down the River within the Port, and also free passages to Piers, Jetties, Landing-places, Wharves, Quays, Docks, and Moorings; and all vessel shall be bound to move when required to clear such channels or passages.

VIII. All vessels within the Port of Rangoon shall be moored or warped from place to place as required by the Master Attendant, or other Officer of the Port, and no vessel shall cast off a warp that has been made fast to her, to assist a vessel in mooring, without being required so to do by the Pilot or Officer in charge of the vessel mooring.

IX. No vessel within the limits of the Port of Rangoon shall boil any Pitch or Dammer on board, or shall draw off spirits by candle or other artificial lights.

X. All vessels within the limits of the channels leading to the Port of Rangoon shall, when at anchor, between sun-set and sun-rise, have a good light hoisted at the star-board fore-yard arm, and all vessels under weigh at night shall show a good light at the fore-royal or upper fore-mast head, and when under weigh in tow of a Steamer shall, in addition to the mast-head light, show a good

light at each fore-yard arm ; the Steamer showing the usual light prescribed by the Admiralty Regulations.

FORT WILLIAM, FOREIGN DEPARTMENT,

THE 22ND APRIL 1857.

It is with great satisfaction that the Governor General in Council directs the publication of the accompanying Despatches received from the Seat of War in Persia. They describe fully the operations of the British Sea and Land Forces in the attack and capture of Mohumera on the 26th of March, the flight of the Persian Army thirteen thousand strong, and the complete success of the British Arms at every point.

The scheme of the attack was chosen by Lieutenant-General Sir James Outram with excellent judgment; it was carried through with steady precision; and it has led to the accomplishment of the object in view at a small cost of life. The Governor General in Council desires to offer to Lieutenant-General Sir James Outram his best congratulations and thanks for this happy result.

The engagement was on the side of the British Arms a Naval one,—no Land Force, with the exception of one Mortar Battery, having taken an active share in it. The manner in which the task was performed is most honorable to the Indian Navy.

That the Officers, Seamen, Artillerymen, Marines, and others of the Squadron did their duty with intrepidity and ardor, is the smallest part of the praise which is owing to them. The plan of the Naval attack, which was to be carried out in shoal and narrow waters, and in a rapid current, by Steamers of heavy draught, some of them encumbered with Vessels in tow, and the thoroughly successful execution of every part of it, without miscarriage or confusion of any kind, in the face of strong defensive works at point blank range, have given proof of a cool judgment, a well-ordered discipline, and a skilful management, of which Commodore Young and the Officers and men under his Command may well be proud.

The cordial thanks of the Government of India are eminently due to Commodore Young and to those who shared that day's work with him; and the Governor General in Council will have pleasure in expressing to the Hon'ble Court of Directors his hearty approbation of the conduct of all concerned. It will be his agreeable duty to bring to the especial notice of Her Majesty's Government and of the Hon'ble Court of Directors the meritorious services of those whom Commodore Young has named in his Despatches of the 27th of March.

The disembarkation of the Troops above the Forts took place under the able direction of Brigadier General Havelock, C. B., rapidly and in good order; but before the landing was effected, success was already complete. The whole Persian Army was in full retreat, leaving in our hands seventeen pieces of Ordnance, their Tents, Baggage, Stores of all kinds, and large Magazines of ammunition and provisions. An accurate Return of Casualties has not yet been received. These were confined to the Squadron, and it is believed that the number does not exceed six killed and thirty wounded. It is estimated that the Enemy lost two hundred killed.

For the judicious arrangements by which the Troops were held in readiness, and their landing facilitated, the thanks of the Government of India are due to the Officers of the General Staff, and to the other Staff and Regimental Officers indicated in Lieutenant-General Sir James Outram's Despatch. The Governor General in Council will not fail to call the attention of Her Majesty's Government and of the Hon'ble Court of Directors to the zeal and exertions of these Officers, as also to the assistance rendered to Lieutenant-General Sir James Outram by the Officers and others serving on his Staff.

The Governor General in Council cannot close this notice of the operations at Mohumera without tendering his thanks to the Commanders and Crews of the Transports engaged on this occasion. The alacrity with which a dangerous service, far beyond their strict obligations, was undertaken, and the courage and skill with which it was performed, entitle the Officers and men of those Vessels to the best acknowledgements of the Government of India.

By Order of the Right Hon'ble the Governor General in Council,

G. F. EDMONSTONE,

Secretary to the Government of India.

(COPIES.)

FROM

LIEUT. GEN. JAMES OUTRAM, K. C. B.,
Commanding Expeditionary Force.

TO

HIS EXCELLENCY LIEUT. GENERAL
SIR R. SOMERSET, K. C. B. AND K. H.,
Commander-in-Chief, Bombay,
Camp near Mohumera,
27th March 1857.

SIR,

I have the honor to report, for your Excellency's information, the successful results of the operations against Mohumera. The Persian Army evacuated their entrenched position and camp yesterday about mid-day, leaving behind all their tents standing, with nearly the whole of their property,—public and private,—all their ammunition, and seventeen guns. As far as I am able to learn,

only five* guns and a portion of the personal effects of the Shalzada have been carried away.

2. It was my intention to have proceeded against this place immediately upon my return from the Borazjoon Expedition last month; but, owing to the non-arrival of the requisite reinforcements, caused by the tempestuous weather in the Gulf, together with unforeseen causes of delay, I was not able to leave Bushire until the 18th instant. In the mean time, however, I had despatched the Transports into the Shat-el-Arab from Bushire, as the Troops were embarked, so that upon my arrival in the Steamer *Feroce*, no further delay occurred beyond what was necessarily caused by the tides and by towing so many large vessels up the river.

3. For some months past, the Persians had been strengthening their position at Mohumera: batteries had been erected of great strength of solid earth, 20 feet thick and 18 feet high, with enfiladed embrasures, on the Northern and Southern

* The remainder supposed to have been thrown in the river.

points of the banks of the Karoon and Slat out-Arab where the two rivers join. These, with other earth-works armed with heavy ordnance, commanded the entire passage of the latter river, and were so skilfully and judiciously placed, and so scientifically formed, as to sweep the whole stream to the extent of the range of the guns up and down the river, and across to the opposite shore. Indeed everything that science could suggest, and labor accomplish in the time, appear to have been done by the Enemy to effectually prevent any vessel passing up the river above their position. The banks for many miles were covered by dense date-groves, affording the most perfect cover for rifle-men, and the opposite shore being neutral territory (Turkish), was not available for the erection of counter-batteries.

4. The accompanying rough Sketch will, I fear, give your Excellency but a faint idea of the great strength of the Persian position and the difficulty of successfully attacking them in it without very considerable loss. I could have landed my Troops on the Island of Abadan, which was strongly occupied by the Persians; and there is no doubt that, after defeating them, the Southern Battery eventually would have fallen to us; but the several batteries in the Northern bank of the Karoon commanded the entire Southern bank, as well as the stream of the Slat-out-Arab, and it would have been a serious and an extremely difficult operation to have crossed the rapid current of the Karoon in the face of the Enemy, had the means existed of doing so; but until our small steamers and boats could round the Southern point and join us we should have been helpless.

5. After mature deliberation, I resolved to attack the Enemy's batteries with the armed steamers and sloops of war, and, as soon as the fire was nearly silenced, to pass up rapidly with the Troops in small steamers towing boats, land the force two miles above the Northern point, and immediately advance upon and attack the entrenched camp.

6. I have now the very great satisfaction of announcing to your Excellency the complete success of the first two operations; the third, to the regret of the Army, being frustrated by the precipitate flight of the Enemy.

7. The Persian Army, ascertained from credible report to amount

two sloops of war to effect my landing, I felt confident of success, although I anticipated some

loss, from what I learnt of the determination expressed by the Enemy to oppose our further advances to the utmost of their power, and their extreme confidence of succeeding, as evinced by the fact of their having sent away their baggage cattle.

8. On the 24th Instant, the steamers, with transport ships in tow, moved up the river to within 3 miles of the Southern Battery, opposite the Arab village of Murt-h; but as some of the large ships shouldered on the way and did not reach the rendezvous until after dark, I was obliged to defer the attack for another day. During the night a reconnaissance was made in a boat to ascertain the nature of the soil of an Island West of, and immediately opposite, the Northern Battery, where I wished to erect a Mortar Battery; but as it was found to be deep mud, I determined to place the mortars upon a raft. This was constructed the following day, under the superintendence of Captain Rennie, I. N., and being armed with two 8-inch and two 5½-inch mortars, with a party of Artillery under Captain Worgan, was towed by the Steamer *Comet*, and moored in position close to the Island during the night, unobserved by the Enemy, who, from our preparations at the rendezvous, and their confidence as to the impossibility of any vessel being able to pass above their batteries, apparently expected that we should land on the Southern Island (Abadan). The horses and guns of the Artillery, a portion of the Cavalry, and the Infantry, were transhipped into boats and small steamers during the day, in readiness for landing the following morning.

9. At break of day on the 26th, the mortars opened their fire upon both the Northern and Southern Batteries. The range of the 5½-inch proved too short, but the 8-inch shells were very efficient, bursting immediately over and inside the Enemy's works; whilst from the position of the raft, but few of the Persian guns could be brought to bear upon the mortars.

At 7 o'clock the several vessels of war moved up into the positions allotted them by Commodore Young, and by 9 o'clock the fire of the heavy batteries was so reduced, that the small steamers, with boats in tow, and one large steamer, the *Pottinger*, towing the Transport *Golden Era*, were able to pass up and land the Troops above the Northern Battery, without a single casualty amongst the Troops, although they had to run the gauntlet of both gun and musket fire. Two or three native followers only were killed in consequence of their unnecessarily exposing themselves.

10. By half-past one o'clock the Troops were landed and formed, and advanced without delay through the date-groves and across the plain upon the entrenched camp of the Enemy, who, without waiting for our approach, fled precipitately, after exploding their largest magazines, leaving, as I have before stated, their tents and baggage, public and private stores, with several magazines of ammunition and sixteen guns behind. The want of Cavalry prevented my pursuing them as I could have wished; but I despatched a party of Scout Irregular Horse, under Captain Malcolm Greco, to follow them up for some distance. This Officer reported that he came upon their rear-guard retiring in good order; but that the road in many places was strewed with property and equipments. The loss of the Persians has been estimated at 200 killed, among whom was an Officer

of rank and estimation, Brigadier Agha Jan Khan, who fell in the Northern Battery.

11. I beg to annex a Report received from Commodore Young, with copy of a letter I had previously caused to be addressed to that Officer, expressing my entire satisfaction with the Naval operations. Indeed, it was impossible for my instructions to have been more ably, or more successfully, carried out; and the Commodore and every Officer and man under his Command have nobly earned my warmest thanks. From Commodore Young, ably seconded by Captain Rennie and the other Officers of the fleet, and Masters of transports, I have throughout received every possible assistance.

12. With exception of the Artillery, with the Mortar Battery under Captain Worgan, no portion of the Military Force was actively engaged with the Enemy, beyond some European rifle-men sent on board the war vessels; but I am not the less indebted to all for their exertions and zeal, and especially for the great order and despatch with which the landing of the Troops was effected under Brigadier General Havelock, C. B., the highest spirit prevailed; and had the large Persian Army only waited our approach out of the range of the ships' guns, I feel confident that it would have received a lasting lesson.

13. From recent information I learn that the Persian Force, in a very disorganized state, is still in full retreat, and I propose to despatch immediately, up the "Karoon," to Ahwaz, three small armed steamers, with 100 European Infantry in each, for the purpose of making a reconnaissance, and, if practicable, effecting the destruction of the magazines at that place.

14. I take this opportunity of recommending to your Excellency's notice Colonel Lugard, C. B., the Chief and the several Officers of my general and personal Staff, the Brigadier General, the Brigadiers and their respective Staff, as also the Officers Commanding the several Regiments, Batteries, and Detachments of Cavalry, and Heads of Departments composing this Force, upon whom much responsibility has devolved, and whose zeal and exertions throughout this Expedition have been most praiseworthy.

15. To Captain Kemball, Bombay Artillery, Consul General at Bagdad, I am much indebted for his very valuable assistance, also to Major Taylor, as well as to Lords Dunkellin, Seymour, and Schonberg Kerr, who volunteered their services on my Staff.

I have, &c.,

	2	Brass Guns, 6-Pr.	Taken by the Navy from the Southern Fort.
	2	Ditto	Calibre not known, being buried in the mud, but apparently 18-Pounders.
	1	6-Inch Brass Mortar	Unserviceable, mounted on a platform cart.
	2	9-Pr. Iron Guns	These are old ship cannonades and are mounted on ship truck carriages, apparently made here.
	4	6-Pr. Ditto	
			They are unserviceable.
	132	Tents of different sizes	30 of these were found in the Upper or Khaulor Meerza's Camp; 80 in the Lower or Abrahim Meerza's Camp; 22 in the Camp of the Northern Battery. They have all been distributed among the Troops.
	16	Gun Wheels (Spare)	Found in the Enemy's Magazines.
	13	Gun Axle-trees, some old Iron Work for Guns, some in complete sets of Harness	
	100	Cartridges attached, and Shot and Shell	
	300	Boxes containing 30,000 of fixed or Gun Ammunition, 3,000 loose Shot or Shell, and 14,400 lbs. of Powder.	These are being collected and brought in.
	4000	Loose Shot and Shell	
	144000	Powder, lbs.	
	14400	Ditto	Destroyed by the explosion.
			Captured.

* During the morning of the 26th Instant, there were apparently one very large and six smaller explosions near the Northern Forts; in the afternoon, one very large and one small explosion in Khaulor Meerza's Camp. Near this latter large one, I have found the remains of about 500 ammunition boxes; it may therefore be assumed that 6,000 cartridges, attached to shot and shell, were then destroyed. Estimating the large one, in the morning, at the same, and each of the (6) eight smaller at one-half, we have in the two large Magazines $6,000 \times 2 = 12,000 \times 4$ lbs. Powder = 48,000 lbs. Powder.

In 8 small Magazines $3,000 \times 8 = 24,000 \times 4 =$... 96,000 ditto.

Total destroyed ... 144,000 ditto.
We have captured ... 14,400 ditto.

These make the total loss to the Enemy ... 158,400 ditto.

To
COLONEL E. LUGARD, C. B.,
Chief of the Staff.

SIR,

I have the honor to report for the information of the Lieutenant-General Commanding that large quantities of flour, grain, dates, chopped straw, &c., were found in the camps abandoned by the Enemy on the 26th Instant, which were distributed to the Troops and followers on the spot. No account of these articles could be taken, as none of the Commissariat Establishment had then been landed, but they have been nevertheless made available for the Public Service by their issue, diminishing the demand on the Commissariat Stock.

Very extensive magazines of flour, wheat, and barley, belonging to the Enemy, have been found in the town of Mohumra, over which guards have been placed in the meantime, and an accurate report of the contents shall be furnished as soon as it is found possible to weigh the same.

I have, &c.,

SIR,

I am instructed by Lieutenant General Sir James Outram, K. C. B., Commanding the Expeditionary Force, to express to you in warm terms his appreciation of the great services rendered by the Indian Navy yesterday in reducing the strong batteries which the Enemy had erected on the left bank of the Euphrates to defend their position at Mohumra—a service so ably planned and conducted by yourself, and so gallantly and effectually performed by the armed steamers and sloops of war, *Feroze*, *Assaye*, *Semiramis*, *Ajdaha*, *Victoria*, *Clive*, and *Pulkland*, with their brave crews, commanded by Captains Rennie, Selby, Grive, Munro, Adams, and Lieutenants Tronson and Worsley, that nothing was left for the Army to do, after being conducted by the Navy, past the silenced batteries, than to land and take possession of the Enemy's entrenched camp, which they had abandoned so precipitately as to leave behind all their tents and property, public and private, with a vast amount of ordnance stores and 16 guns, having carried away only a small portion of the personal effects of the Shahzada and five guns.

The Lieutenant-General tenders to you, your Officers and Crews, his best thanks for your services, and his hearty congratulations upon the successful issue of the undertaking. He further begs you will thank Lieutenant Chitty and Mr. [unclear] for the important services they rendered

in the *Berenice* and *Comet*, and also the Masters Commanding the several steamers and transport ships for their zealous assistance throughout the Expedition.

To

LIEUT.-GEN. SIR J. OUTRAM, K. C. B.,
Comdg. Persian Expeditionary Force.
Dated H. C. S. *Feroze*, off Mohumra,
27th March 1857.

SIR,

In continuation of my letter No. 5 of the 25th Instant, I have the honor to inform you that, having observed the mortars placed on the raft constructed under the superintendence of Commander Rennie of the *Feroze*, and anchored on the evening of the 25th Instant in the channel to the Westward of the Dubbee Island, had opened fire, the Indian Naval Squadron under my Command got underweigh and ran up river until opposite the Forts defending the channel leading to Mohumra in the following order:—the *Semiramis*, with *Clive* in tow, followed by the *Ajdaha*, proceeded up Western channel to support the Mortar Battery; the *Feroze*, *Assaye*, and *Victoria*, the latter, with *Pulkland* in tow, remaining in reserve until the fire of the Forts was demoralized.

This was soon accomplished, on which the vessels in reserve entered the Eastern channel, the *Feroze* opening fire on the South Fort at less than point blank range, and passed to take up her position against the North Fort and sufficiently in advance to receive support from the *Assaye*

immediately in stern of her. The division of the ships in the Western channel was then recalled and joined in close attack; the *Semiramis* and *Victoria*, the latter with *Falkland* in tow, engaging the South Fort as well as the inland one on the North side. Besides the fire maintained on the Forts, frequent discharges of shell and grape were made in the direction where it was supposed the Enemy's entrenched camp was situated.

So effective was the fire from the ships, that in less than three-quarters of an hour from its commencement, the batteries were only able to reply from three or four guns. At this period (7h 45m. A. M.) of the engagement, the *Feroze* flying my pendant hoisted the rendezvous flag at the mast-head, which was repeated by the other vessels engaged, the pre-concerted signal for the troop ships to advance.

This movement on the part of the vessels in question not being made with such celerity as could be desired, Commander Rennie, of the *Feroze*, volunteered to proceed through the fire to accelerate that advance, which was accomplished in admirable order, although at the time the fire from the batteries was far from being silenced.

From between 9 and 10 o'clock five heavy explosions in different parts of the fortifications indicated the overwhelming nature of the attack, and led me to suppose that the resistance hitherto afforded could not much longer continue. I was, therefore, anxious to have the Troops landed as expeditiously as a due regard to their security would allow, so as a combined and simultaneous movement by the Naval and Military Forces might be made with the certainty of a successful issue, and with this view, passed up river, until close to Jabor's Fort, where the disembarkation was effected easily and without interruption.

After the batteries had ceased firing artillery, a fire of musketry was opened from them, as well as from breast-works in their vicinity, and maintained with great spirit for some time, when storming parties were landed from the *Semiramis*, *Olive*, *Victoria*, and *Falkland*, who drove before them the last of the Enemy, and took possession of their works and guns.

Considering the strength of the fortifications, both as regards position and construction, with a numerous garrison and the large number of guns which could be brought to bear on the ships, in consequence of their closeness to the Enemy's defences which were likewise strengthened by breast-works, occupied by large bodies of small arm men, whose fire at times was annoying, I am thankful to say the casualties sustained by the Squadron during the engagement amounted only to five killed and eighteen wounded.

Before concluding, I feel it to be the most pleasant part of my duty to bring to your notice the great gallantry and coolness displayed by every Officer and Seaman under my Command, during the operations so successfully carried out.

The important services rendered by Commander Rennie, of the *Feroze*, are a further and honorable addition to an already well-established reputation.

Commander Selby, to whose local knowledge I am much indebted, elicited my warmest admiration by the dashing manner in which he carried the *Semiramis* into the channel leading to Mohura between the Forts on either bank.

By the excellent way in which Commander Grove of the *Olive*, Acting Commander Man-

ners of the *Pictoria*, and Lieutenant Commanding Trouson of the *Falkland*, and Wordley of the *Apteka*, handled their respective ships, and to the closeness and precision of their fire, much of the success of the day is to be attributed. Special commendation is due to Commander Adams, of the *Assaye*, for the gallant and most efficient manner in which he seconded my attack on the Northern Forts. The conduct of Lieutenant Clitty, of the *Berenice*, also calls for my approval for conducting his vessel under shelter of the ships of war, past the batteries with about fourteen hundred troops and followers on board.

Commander Nisbett, Agent for Transports, by the assiduity with which he had my arrangements carried into effect, was of material assistance.

To Acting Masters Commanding McLauria of the *Napier*, Holland of the *Comet*, Fletcher of the *Plaut*, Neale of the *Assaye*, Davies of the *Etherey* Flat, and Mr. Park of the *Hugh Lindsay*, my warmest acknowledgements are due for the zeal and intelligence with which they acted on this occasion, and by all of whom my instructions were ably carried out.

The peculiar nature of the services required to be performed rendered unavoidable the exposure of the steam transports to the effects of musketry fire. The able manner, however, in which the Officers in Command of these vessels brought them through the ordeal with all but immunity, was highly creditable and praiseworthy.

To the Commanders of the transports generally too much praise cannot be accorded for the willing assistance they rendered throughout the day, both personally, and with earnestness of the means at their disposal, for the furtherance of the Public Service.

Finally, allow me personally to acknowledge the many obligations I owe you for the great assistance you afforded me in maturing and facilitating measures that appeared likely to conduce to the success of the enterprize. My thanks are also due to your Staff for the completeness with which every arrangement was made for the immediate landing of the Troops in a state fit for active service.

I feel confident that, although the victory is a Naval one, it would not have been so complete, but for the sight of the imposing Force with which the Enemy felt he must soon come in hopeless contact, unless he made an immediate retreat.

I have, &c.,

P. S.—The many matters of detail to be attended to at a period of such hurry, has placed it out of my power to obtain an authenticated list of the casualties sustained during the action. You will, however, observe that, according to the numbers already given, they have been comparatively few. This is in a great measure to be attributed to the very efficient protection afforded the crews by a breast-work made of trusses of pressed hay, which were placed on the bulwarks round the several vessels; neither have I an account of the damages inflicted on the ships by the Enemy's fire. They have, however, been considerably cut up in the rigging and injured in the hull, although rarely, if at all, under the water line.

I had almost forgotten to mention the services of Mr. Sweeney, my Flag Lieutenant, who, besides

buoying off the Channel across the bar of the river, was invaluable to me in communicating orders to the ships of war and transports. His coolness during the action, when performing his office of Flag Lieutenant, was conspicuous.

Mr. Rogers, my Secretary, likewise deserves being brought to notice for his services on the occasion, which were such as to meet with my warm approval.

Bombay 10th April 1857.

MY LORD,

The Hon'ble Company's Steam-ship
Political Department, *Berenice* arrived in this

harbour to-day, bringing important Despatches, which I have the honor herewith to forward to your Lordship in Council, from Captain Young, the Senior Indian Naval Officer in the Persian Gulf, reporting the fall of

Steamer *Feroze*,
" *Semiramis*,
" *Assaye*,
" *Ajuluha*,
" *Victoria*,
Sloop *Oliver*,
" *Fullbrook*,
" *Berenice*.

Mohumra, after a brilliant action and bombardment of some hours by the Squadron (named in the margin,) and giving a detailed account of the Naval operations and the suc-

cessful result reflecting the highest credit upon Captain Young and all the Officers and men under his Command, whose services and assistance he so warmly acknowledges and appreciates individually and collectively. I take this opportunity of expressing to your Lordship in Council my highest approbation of all the proceedings, arranged and carried out by Captain Young under very trying and peculiar circumstances, exhibiting the greatest skill and energy, as well as good seamanship; and I feel sure that I have only the pleasing and gratifying task of bringing this to the knowledge of your Lordship in Council, to ensure for Captain Young and all under his Command the due reward of their gallantry and exertions. It also affords me the highest satisfaction to record my meed of praise to all who have so nobly done their duty to their Country and upheld the character of the Indian Navy.

I have, &c.,

Commander-in-Chief of the Indian Navy.

N. B.—I have not received any official return of the names of the killed and wounded; but I will forward it to your Lordship in Council the moment it arrives. I have much pleasure in forwarding a letter to the address of Commodore J. W. Young, from Lieutenant-General Sir James Outram, K. C. B., communicating his thanks for the great assistance rendered by the Indian Navy during the late operations.

FROM

ACTING COMMODORE J. W. YOUNG, I. N.,
Comdg. Persian Gulf Squadron.

TO

REAR ADMIRAL

SIR HENRY LEEKE, K. H., R. N.,

C-in-C. of the Indian Navy.

Dated H. O. S. F. *Feroze*, off Mohumra,
27th March 1857.

SIR,

With reference to the letter which I did myself the honor to address to you on the 18th Instant, intimating that, consequent on the Lieutenant-General Commanding the Persian Expeditionary Force having embarked on board of the *Feroze*, it was my intention to leave Bushire on the morning of the 19th, for the purpose of proceeding to the attack of Mohumra. It has now become my agreeable duty to inform you that, after a severe bombardment from the Squadron, the Forts defending the Town were captured, and their Artillery secured by the Force at my disposal yesterday.

In continuation of my letter already referred to, I will proceed to narrate the events as they occurred, from the 18th Instant up to the date on which the place fell.

Having left Bushire, as intimated, in the *Semiramis*, with the Persian Gulf Squadron under my Command, Mohumra, the rendezvous appointed, was reached on the evening of the 21st March. The 22nd and 23rd were occupied, before making a further advance, in the arrangement of details of attack. On the morning of the 24th, the fleet of ships of war and transports again got under weigh, and ran up river as far as the village of Hurteh, about four miles below Mohumra, where it was again brought to anchor, to allow the Engineer Officers of the Force to erect a Mortar Battery for opening the attack on the morning of the 25th, if a suitable site could be found on Dubboe Island. A survey of the whole Island having been made during the night of the 24th and 25th, under the guidance of Commander Solby and Mr. Holland, both of the *Comet*, and each possessed of much local experience, the idea of opening the bombardment from a land Mortar Battery had to be given up in consequence of the extremely marshy nature of the land and its slight elevation above the surface of the river. Commander Roanie, however, with his usual fertility of resource under such circumstances, employed himself next day in superintending the construction of a mortar raft, to be moored in the Channel to the Westward of the Dubboes, and succeeded so well in his endeavours, that it was completed and placed in position late on the night of the 25th, without attracting the Enemy's attention.

By arrangement, the mortars were to open on the Forts defending the Channel of approach to the Town at dawn, and so soon as this took place, the Squadron was to move upwards in support, the ships taking up their positions in the following order:—The *Semiramis*, with the *Oliver* in tow, followed by the *Ajuluha*, entered the Western Channel in support of the Mortar Battery; the *Feroze*, *Assaye* and *Victoria*, the latter with the *Fullbrook* in tow, remaining in reserve until the

fire of the Forts was deranged. This was soon accomplished, on which the vessels in reserve entered the Eastern Channel, the *Feroze* opening her fire on the Southern Fort at less than point blank range, as she passed to take up her position against the North Fort and sufficiently in advance to receive support from the *Assaye*, immediately astern of her. The division of ships in the Western Channel was then recalled and joined in close attack,—the *Semiramis* and *Victoria*, the latter with the *Falkland* in tow, engaging the South Fort, as well as the inland one on the North side. Besides the fire maintained on the Forts, frequent discharges of shell and grape were made in the direction where it was supposed the Enemy's entrenched camp was situated.

So effective was the fire from the ships, that in less than three-quarters of an hour from its commencement, the batteries were only able to reply from three or four guns.

At this period (7h. 45m. A. M.) of the engagement, the *Feroze*, flying my pendant, hoisted the rendezvous flag at her mast-head, which was repeated by the other vessels engaged, being the preconcerted signal for the troop ships to advance. This movement on the part of the vessels in question not being made with such celerity as could be desired, Commander Rennie, of the *Feroze*, volunteered to proceed through the fire to accelerate their advance, which was accomplished in admirable order, although at the time the fire from the batteries was far from being silenced.

From between 9 and 10 o'clock five heavy explosions in different parts of the fortifications indicated the overwhelming nature of the attack, and led me to suppose that the resistance hitherto offered could not continue much longer. I was, therefore, anxious to have the Troops landed as expeditiously as a due regard to their security would allow, so as a combined and simultaneous movement by the Naval and Military Forces might be made with the certainty of a successful issue, and with this view passed up river, until close to Juber's Fort, where the debarkation was effected easily and without interruption.

After the batteries had ceased firing Artillery, a fire from Musketry was opened from them, as well as from breast-works in their vicinity, and maintained with great spirit for some time, when storming parties were landed from the *Semiramis*, *Osiris*, *Victoria*, and *Falkland*, who drove before them the last of the Enemy and took possession of their works and guns.

Considering the strength of the fortifications, both as regards position and construction, with the numerous garrison and large number of guns which could be brought to bear on the ships in consequence of their closeness to the Enemy's defences, which were likewise strengthened by breast-works, occupied by large bodies of small arm men, whose fire at times was annoying. I am thankful to say the casualties sustained by the Squadron during the engagement, so far as I have yet ascertained, amount only to five killed and eighteen wounded.

According to these numbers, they have comparatively few. This is in a great measure to be attributed to the very efficient protection afforded the crews by a breast-work of masses of pressed hay, which were placed round the several vessels. Hitherto the many matters of detail to be attended to at a time of great hurry has placed it out of my power to obtain authenticated lists of our actual

loss; neither have I an account of the damages inflicted on the shipping by the Enemy's fire. They have, however, been considerably cut up in their rigging and injured in the hull, although rarely, if at all, under the water line.

Before concluding, I feel it to be the most pleasant part of my duty to bring to your notice the great gallantry and coolness displayed by every Officer and Seaman under my Command during the whole of the operations so successfully carried out. The important services rendered by Commander Rennie, of the *Feroze*, are a further and honorable addition to an already well-established reputation. Commander Selby, to whose local knowledge I am much indebted, elicited my warmest admiration by the dashing manner in which he carried the *Semiramis* into the Channel leading to Mohunra between the Forts on either bank. By the excellent way in which Commander Grieco, of the *Osiris*, Acting Commander Manners, of the *Victoria*, and Lieutenants Commanding Tresson, of the *Falkland*, and Worsley, of the *Albatra*, handled their respective ships, and to the coolness and precision of their fire much of the success of the day is to be attributed.

Special commendation is due to Commander Adams, of the *Assaye*, for the gallant and most efficient manner in which he executed my attack on the Northern forts. The conduct of Lieutenant Chitty, Commanding the *Berenice*, also calls for my approval for conducting his vessel, under shelter of the ships of war, past the batteries with about fourteen hundred troops and followers on board.

Commander Nisbett, Agent for Transports, by the assiduity with which he had my arrangements carried into effect, was of material assistance. Lieutenant Sweeney, my Flag Lieutenant, besides buoying off the Channel across the bar of the river, was invaluable in communicating my orders to the different ships of war and transports,—a duty which in action required more than usual exposure, and rendered his coolness conspicuous. Mr. Rogers, Clerk in charge of the *Comet*, who has been doing duty as my Secretary, deserves being brought to notice, for his services on this occasion were such as to meet with my warm approval.

To Acting Masters Commanding McLaurin, of the *Napier*, Holland, of the *Comet*, Fletcher, of the *Planet*, Neale, of the *Assyria*, Davis, of the *Etherey* Flat, and Mr. Dark, of the *High Lindsay*, my warmest acknowledgements are due for the zeal and intelligence with which they acted on this occasion, and by all of whom my instructions were ably carried out. The peculiar nature of the service required to be performed rendered unavoidable the exposure of the steam transports to the effects of a musketry fire. The able manner, however, in which the Officers in Command of these vessels brought them through the ordeal with all but immunity, was highly creditable and praiseworthy. To the Commanders of the Transports generally too much praise cannot be accorded for the willing assistance they rendered throughout the day, both personally and by availing themselves amply and with earnestness of the means at their disposal for the furtherance of the Public Service.

In conclusion, I beg to enclose for your information copy of a congratulatory letter to my address

from Lieutenant-General Sir James Outram,
K. C. B., Commanding Persian Expeditionary
Force.

FROM

COLONEL LUGARD, C. B.,
Chief of the Staff,

To

COMMODORE J. W. YOUNG, I. N.,
Comdg. Squadron, Persian Gulf.
Dated 27th March 1857.

SIR,

I am instructed by Lieutenant-General Sir James Outram, K. C. B., Commanding the Expeditionary Force, to express to you in warm terms the appreciation of the great service rendered by the Indian Navy yesterday in reducing the strong batteries which the Enemy had erected on the left bank of the Euphrates to defend their position at Mohamra, a service so ably planned and conducted by you, and so gallantly and effectually performed by the armed steamers and sloops of war, *Feroze*, *Semiramis*, *Assaye*, *Ajdaht*, *Victoria*, *Olive*, and *Falkland*, with their brave crews commanded by Captains Rennie, Selby, Grieva, Mauners, and Adams, and Lieutenants Tronson and Worsley, that nothing was left for the Army to do

after being conducted by the Navy, past the silenced batteries, than to land and take possession of the Enemy's entrenched camp, which had been abandoned by them so precipitately as to leave all their tents and property, public and private, with a vast amount of ordnance stores, and (14) fourteen guns—a small portion only of the personal effects of the Shahzada and five guns having been carried away.

2. The Lieutenant-General tenders to you, your Officers and Crews, his best thanks for your services, and his hearty congratulations upon the successful issues of the undertaking. He further begs you will thank Lieutenant Chitty and Mr. Holland for the important services they rendered in the *Berenice* and *Comet*, and also the Masters Commanding the several steamers and transport ships for their zealous assistance throughout the Expedition.

I have the honor to be, &c.,

Chief of the Staff.

In addition to those whose Names appear in the above List, it has been ordered by the Court that the whole List of the Civil Servants of the East India Company is to be considered as virtually included, and that any of the said Civil Servants, who may be at any time resident in Calcutta, are liable to serve on Grand and Special Juries, though their Names are not inserted in the Jury List for the Current Year, except such of the said Civil Servants as are exempted by the Jury Rules.

Any person whose name is improperly inserted or wrongfully or defectively described, may apply on Tuesdays and Fridays, during the month of May, to a Judge in Chambers, who, either on the oath of the party himself, or on Examination of Witnesses, will order the List to be corrected.

HENRY HOLROYD, Clerk of the Crown.

Notification.

The 25th March 1857.

With the sanction of the Governor General of India in Council, it is hereby declared that the Port of Rangoon, and the navigable River and Channels leading to that Port, are subject to Act No. XXII. of 1855.

The limits of the said Port of Rangoon are as follows :—

To the West.—A line drawn South from the boundary pillar at Kemmendine Point across the Rangoon River to the boundary pillar on the opposite bank.

To the East.—A line drawn from the point of land between the Pazoondoung Creek and the Pegu River to the boundary pillar at the point on the Dalla Shore called Dway-ngoo.

So much of the Pazoondoung Creek as lies South of a line drawn from a pillar at the East end of Kyenzeik village on the Eastern bank of the said Creek to a pillar opposite to it on the Western bank.

The limits of the said Port include to the North and South so much of the Rangoon River and of the shores thereof, and so much of the Pazoondoung Creek and the shores thereof as are within fifty yards of high-water mark spring tides.

The limits of the navigable River and Channels leading to the said Port, made subject to the said Act, are as follows :—

To the North.—The Port of Rangoon as above defined.

To the South.—A line drawn East and West from the Light Ship.

All parts of the Rangoon River between the said limits and below high water line at spring tides are subject to the said Act.

PORT RULES.

With the sanction of the Governor General of India in Council, the following Port Rules have been made and are hereby promulgated for general information and guidance :—

I. No vessel, if above 200 tons, shall enter within the limits of the Port of Rangoon, or move from one place to another within the Port, between sun-set and sun-rise, without the special permission of the Master Attendant.

II. The Commanders of all vessels arriving at the Port of Rangoon are desired to enter correctly

in the columns of the Report Book of the Master Attendant, as soon as presented to them, the information therein required regarding their vessels. They will also report in writing to the Master Attendant, twenty-four hours before their departure, the particulars noted in the form appended hereto.

III. All Commanders of vessels arriving at Rangoon shall anchor in such a position as the Master Attendant or his Assistant shall direct. All vessels above 100 tons burthen shall moor with two bower anchors and 30 fathoms of a Cable each way ; and shall not move from their position without a Pilot, except with the express permission of the same authority.

IV. All Commanders of vessels shall have their jib and driver-booms rigged in when required by the Master Attendant, and shall strike their yards and masts if required to do so by, or by order of the same Officer.

V. Every ship or vessel within the Port of Rangoon shall remove any anchor or spar or other substance projecting from her side when required to do so by the Master Attendant, or other Officer of the Port.

VI. The Commanders of all vessels entering the Port of Rangoon with ballast on board shall, without delay, send to the Master Attendant a report in writing, stating the description of ballast on board, the quantity in tons, and the Port of shipment. Application must be made by the Commander to the Master Attendant for permission to tranship or land ballast, and no ballast shall be transhipped or landed except under the sanction of the Master Attendant, and only at such Stations as he shall direct.

VII. A free channel of 240 yards width is to be kept for ships moving up or down the River within the Port, and also free passages to Piers, Jetties, Landing-places, Wharves, Quay, Docks, and Moorings ; and all vessels shall be bound to move when required to clear such channels or passages.

VIII. All vessels within the Port of Rangoon shall be moored or warped from place to place as required by the Master Attendant, or other Officer of the Port, and no vessel shall cast off a warp that has been made fast to her, to assist a vessel in mooring, without being required so to do by the Pilot or Officer in charge of the vessel mooring.

IX. No vessel within the limits of the Port of Rangoon shall hoist any Torch or Dammier on board, or shall draw off spirits by candle or other artificial lights.

X. All vessels within the limits of the channels leading to the Port of Rangoon shall, when at anchor, between sun-set and sun-rise, have a good light hoisted at the star-board fore-gard arm, and all vessels under weigh at night shall show a good light at the fore-royal or upper fore-mast head, and when under weigh in tow of a Steamer shall, in addition to the mast-head light, show a good

light at each fore-yard arm ; the Steamer showing the usual light prescribed by the Admiralty Regulations.

DESCRIPTION OF THE LIGHT HOUSE AT CAPE MORETON.

The Light House at Cape Moreton is situated in—

Lat. 27° 0' 3" } By Flinder.
Long. 153° 26' 30" }

AND

Lat. 27° 2' 54" } By Yule.
Long. 153° 28' 46" }

It is a white stone Tower, 67 feet in height, including the lantern, and shows a white revolving light of the first class, on all points of the horizon seaward, having intervals of 70 seconds between the brightest points.

The light consists of 21 Catoptric lamps, on three faces of 7 lamps each, placed in three rows, the upper one containing 2 lamps, the middle 3, and the lower 2.

The Light House stands on the summit of the Eastern projection of the North-East part of Moreton Island, and a little more than a mile distant from the North extreme of the Island, bearing N. W. by Compass.

The centre of the light is 391 feet above the sea at high-water, and its estimated range is 26½ nautical miles.

The following magnetic bearings are taken from the Light House:—

Flinder's Rock.—N. 7 E. 3½ miles.

Buoy A.—W. by N.

Light Vessel.—W. ¼ N.

Variation of Compass.—9½° E.

J. C. WICKHAM,
Government Resident.

Sailing Directions for the North Channel into Moreton Bay.

Cape Moreton is the north-eastern point of Moreton Island, and is visible from a ship's deck at the distance of eight leagues.

When first seen from the southward, it appears to be detached, as the land which connects it with the higher parts of the island is very low.

The Light House is a conspicuous object on the summit of the Cape.

With the exception of Flinder's Rock, which bears N. 7 E. from Light House, and N. N. E. 3 miles distant from the north projection of the Cape, there does not appear to be any out-lying danger.

Vessels entering Moreton Bay by the north channel should, in coming from the southward, pass about a mile from the north projection of the Cape, and steer W. ¼ N. until the N. W. extreme of the bushes at Point Camboyuro is on with "Ship Patch" and bears S. by E.

The Light Vessel will then bear a little to the southward of S. W. by W., and the Light House E. by S. 7 S.; the depth will then be 7 fathoms at low-water, and the black buoy at A (Vide Chart) will bear about S. W. ¼ W. a mile and a third distant.

The Glass House Hills will be seen (in clear weather) as on the Sketch, with the highest (Durwa)

bearing W. 4° S., but too far distant to be used as a leading mark.

From this point, a course about a degree to the southward of W. S. W. will carry a ship about $\frac{1}{2}$ of a mile to the northward of the Light Vessel; stand on this course until the Light Vessel is on with Mount Tempest (the highest part of Moreton Island), bearing S. 38° E.; you will then be to the westward of the east banks, and may steer a course S. E. $\frac{1}{4}$ S. for Moreton Island, or with Mount Tempest a quarter of a point open on the port bow, keeping a look out for the effect of the tide on the ship's course. The Light Vessel may be passed on either side; she is moored S. by W. 3 cables distant from the N. W. shoulder of the eastern banks. The breadth of the channel between the east and west banks is about $\frac{1}{2}$ of a mile, and the banks are plainly discernible from a slightly elevated position.

There is good anchorage for nearly a mile from the Light Vessel, in a north-westerly direction, in from 4 to 5 fathoms, where an anchor may be safely dropped in the event of wind or tide failing, or in the event of a vessel reaching thus far before dark, as it would not be safe to proceed further in the absence of daylight.

Cambayuro Point is bold of approach and may be passed at a cable's length distant; stand pass it until the extreme of the bushes bears north, and then steer south until the "Ship Patch" (sand slope) at Tangalooma Point bears E. N. E. a mile and three-quarters distant, when a S. W. $\frac{1}{4}$ S. course may be steered to an anchorage off the Bar of the River Brisbane, in 4 and $4\frac{1}{2}$ fathoms, muddy bottom; the highest trees on "Mud Island" bearing east.

A direct course S. W. by S. to an anchorage off the Bar may be steered from Cowan Cowan, by passing to the westward of the Middle Bank off Tangalooma; but as the distance off shore can be more correctly estimated by passing to the eastward of it, the track shown in the Plan had better be adopted until a Buoy is placed on the Middle Bank.

The Middle Bank bears W. by S. $\frac{1}{4}$ S., and is two and a-half miles distant from "Ship Patch."

The shore between Cowan Cowan and Tangalooma is fringed by a narrow bank, upon parts of which there is not more than four or five feet water; the south part of this bank is about a mile off shore, inside which there is anchorage, which may be gained by passing between it and the "Ship Patch."

There is good anchorage in Yule's Roul, off the watering place, about a quarter of a mile from the shore, in 10 or 12 fathoms water, where wood and water can be easily obtained.

Whalers would find this a most convenient place for taking on board either of these articles; the water is supplied by a never failing stream into the bay, and wood can be cut within fifty yards of high-water mark. An anchorage may be taken in 5 and 6 fathoms water on the bank, opposite the Pilot's Station, and more out of the strength of the tide; but the distance from the watering place would be considerably increased.

The soundings on the Chart are reduced to the lowest water at spring tides; the rise is from three to seven feet; strong south-easterly winds cause the greatest rise, and during the prevalence of strong westerly winds in the winter, the range

of tide is at times scarcely perceptible. The general set of the tide is the flood to the south, and the ebb to the north, but in some places the direction of the stream is varied by the shoals.

In the channel, between the east and west banks, the first of the ebb sets strong to the N. E. over the banks; after half-tide it takes a northerly direction, and latterly about N. N. W. It runs E. N. E. through Freeman's Channel.

Coasters and steamers drawing twelve feet water may use Freeman's Channel with safety, by keeping about a quarter of a mile off the sandy beach on the north shore of the Island; they should not stand to the southward until Cowan Cowan is well open of the extreme of the sandy point at Cambayuro.

In going out by Freeman's Channel, a course should be kept to the northward past Cambayuro, until the north extreme of Cape Moreton is open to the northward of the sandy beaches, but the eye is the best guide for this channel.

As Moreton Island is entirely of sandy formation, the banks nearest to the shore are constantly undergoing changes in size and position, therefore it would not be prudent for a stranger to attempt this channel without having a Pilot on board.

The ship channel should on all occasions be used by large ships; there is a safe channel through the eastern banks, with seldom less than four fathoms water, which is generally used by steamers and other coasters, but should not be taken by a stranger. As the eastern limit of the north bank has not been ascertained, it will be advisable for vessels coming from the northward, that Mount Tempest should not be brought to bear to the eastward of S. by E. until the Light House bears E. S. E., a ship will then be on the channel course, and may steer W. $\frac{1}{4}$ N. and follow the foregoing directions.

The soundings in the channel between the east and north banks will decrease gradually from 7 to 5 fathoms, and after rounding the Light Vessel will increase to 10 and 12 fathoms, and there will not be less water until abreast of Tangalooma Point.

From the Pilot Station to some distance beyond Cowan Cowan, the water is much deeper, and varies from 15 to 20 fathoms.

Ships making Cape Moreton late in the evening, will find safe anchorage from 2 to 3 miles inside the north extreme of Cape Moreton, and about a mile and a half off shore, in 6 fathoms water.

The bearings are magnetic. The Light Vessel has done away with the necessity for the chequered buoy at B, but in the event of her being temporarily removed, that buoy will supply her place. The Light Vessel will show a double light at night, namely, two vertical lights, with an intervening space of about 5 feet.

J. C. WICKHAM, Capt., R. N.,
Government Resident.

NOTICE TO MARINERS.

The Light will be exhibited at the Light House on Cape Moreton, for the first time, on Saturday Evening, the 14th February, of which all persons are requested to take notice.

Notification.—The Right Hon'ble the Governor General in Council has much gratification in publishing for general information the following Despatch from Lieut.-General Sir James Outram, K. C. B., Commanding Expeditionary Force in Persia, to His Excellency the Commander-in-Chief of the Bombay Army, reporting the result of the Expedition against the Persian Army at Ahwaz on the Karoon River.

2. The Governor General in Council desires to express his high sense of the enterprising spirit, the gallantry, and sound judgment, which were exhibited by Captain Rennie, L. N., and Captain Hunt, of H. M.'s 78th Highlanders, in the execution of this service.

By order of the Right Hon'ble the Governor General of India in Council,

G. F. EDMONSTONE,

Secy. to the Govt. of India.

(COPIES.)

FROM

LIEUT.-GENL. SIR JAMES OUTRAM, K. C. B.,
Commanding Expeditionary Force,

TO

HIS EXCELLENCY LIEUT.-GENL.

SIR H. SOMERSET, K. C. B. and K. H.,
Commander-in-Chief, Bombay.

Camp Muhumra, 4th April 1857.

SIR,—In my Despatch dated the 27th Ultimo, I announced to your Excellency my intention of immediately despatching up the Karoon River, to Ahwaz, an armed Flotilla, being the only means I had of effecting a distant reconnaissance, owing to the total want of baggage cattle; but as the steamers had to be coaled, and seven days' provisions for the Troops put on board, whilst all were busily engaged disembarking tents and stores from the transports, some little delay occurred, and it was not until the afternoon of the 29th that the party could be despatched.

2. The Flotilla I placed under the immediate Command of Captain Rennie, L. N., aided by Captain Komhall, Political Agent in Turkish Arabia, who zealously undertook the political conduct of the Expedition. Captain Hunt, 78th Highlanders, commanded the Military Detachment, and Captain Wray, Deputy Quarter-master General, and Captain M. Green, my Military Secretary, accompanied the Expedition, for the purpose of reporting upon the country in the vicinity of Ahwaz.

My instructions to Captain Rennie were "to steam up to Ahwaz, and act with discretion, according to circumstances. Should the Persian Army have arrived, and apparently be prepared to make a determined stand, the party was to return after effecting the reconnoissance; but in the event of the Enemy having proceeded beyond Ahwaz, or if they continued their flight on seeing our steamers, (as I fully expected they would, under the impression that the Flotilla was the Advanced Guard of the British Army,) it was my desire that the party should land and destroy the Magazines and Stores which the Persians had collected."

3. By the annexed Reports from Captains Rennie and Wray, which I have the honor to submit, your Excellency will learn how admirably my instructions have been carried out, and the complete success which has attended the energetic and judicious measures adopted by all concerned. Indeed, it is impossible to calculate upon the advantages which must ensue from the successful result of this Expedition, in the effect it will have upon the Arab tribes, who, in crowds, witnessed the extraordinary scene of a large army of 7,000 Infantry, with 5* or 6 Guns, and a host of Cavalry,

* One or two times and to have joined them at Ahwaz.

precipitately retreating before a Detachment of 300 British Infantry, three small Steamers, and three Gun-boats.

4. I feel that I cannot sufficiently express to your Excellency the great obligation I am under to the several Officers and Men of the Expedition.

5. Captain Rennie, I. N., whose gallant conduct at the Bombardment of Mohumra I so recently recorded, has again earned my highest praise and warmest thanks for the able manner in which he has conducted the Expedition.

6. Captain Kimball, who on this, as on every occasion of difficulty and danger upon which I have required his services, has rendered me most valuable assistance, materially contributed to the success of the Expedition by his counsel and energy. Great praise is also due to Captain Hunt, 78th Highlanders, who so successfully carried out the Military operations, to Captain Wray, Deputy Quarter-master General, and Captain M. Green, my Military Secretary, for the part they so ably performed; and to all the Officers and Men employed in the Expedition. I have to thank them all, and beg to recommend those specially named to your Excellency's notice.

I have the honor to be, &c,

(Signed) J. OUTRAM, *Lieut. General,*
Commanding Expeditionary Force.

FROM

ACTING COMMODORE J. RENNIE, I. N.,
Commanding Squadron in Persian Gulf,

TO

LIEUT.-GENL. SIR JAMES OUTRAM, K. C. B.,
Commanding Expeditionary Force.

Ahwaz, 3rd April 1857.

SIR.—It affords me much gratification to report the complete success that has attended the Expedition you did me the honor to place under my Command.

On arrival near Ahwaz, on the morning of the 1st Instant, the Persian Army was observed posted on a strong position on the right bank of the river; and having reason to believe that whatever force there might be on the left bank did not amount to

such a number as would entail serious risk to our Force, it was at once determined to carry Ahwaz.

Our arrangements for attack were speedily completed, and by 10-30 A. M., Captain Hunt, his advance flanked by the gun-boats, moved off with his gallant band of three hundred men, and, in one hour and a half from the time of the gun-boats opening fire, he was in possession of Ahwaz, and the Persian Army, consisting of six thousand Infantry, five guns, and a cloud of Bakhlyar horsemen, were in full retreat upon Dizul, leaving in our possession one gun (a brass 14-pr. field-piece), 15½ stand of arms, 56 mules, 230 sheep, besides an enormous quantity of grain, wheat, and barley.

Captain Kimball requested me to remain at Ahwaz for two days, to afford him time to communicate with the Arab tribes, as also to ensure the impossibility of the defeated Persians returning to Ahwaz:—they retired so precipitately as to have been unable to carry with them means of subsistence for more than two days.

It would be presumption in me to offer a remark on the gallantry and zeal of those serving with me; I shall therefore merely take the liberty of attaching a Nominal List of the Officers, with the number of men under their Command, composing an Expedition that penetrated over one hundred miles beyond Mohumra, and which, in so short a time, compelled the Persian Army to abandon a depot of provisions on which it almost entirely depended for subsistence.

In conclusion, I beg to add, that it is to Captain Kimball who planned, and to Captain Hunt who executed, this bold stroke, that thanks are more especially due. Further comments from me are unnecessary.

Camp Mohumra, 5th April 1857.

SIR,—According to the instructions received from you, I have the honor to forward the following Report upon Ahwaz and the country in its vicinity, with a brief account of the Military operations of the Expedition.

Ahwaz is situated on the left bank of the Karoon River, at about 140 miles from its mouth. The town is in ruins, and not more than one third of the houses appear to be occupied. There is no fort or defences of any kind, beyond an old ruinous stone wall round part of it. The inhabitants number about 1200, chiefly Arabs of the Chah tribes. Close to the town are two old broken-down bunds across the river, through which the water rushes with great rapidity. One of these is just opposite the town, the other considerably below it. These bunds are impassable for boats drawing more than a few feet water, and the strength of the current renders the passage of any boats a matter of great difficulty; indeed, we did not ascertain satisfactorily that boats could pass at all. The river is from 90 to 140 yards wide, and there are several low islands in the middle, covered with low tamarisk jungle. The banks of the river

are generally high, and the water so deep that our small steamers could lie close alongside. The country on the town side of the river is a bare plain, with very slight patches of cultivation here and there, and on the South-east side of the town is a range of sandstone hills perfectly bare. The country on the opposite side of the river is much the same—a barren plain without a tree—and the most desolate-looking places imaginable. A few hundred yards above the bank is a ridge, which, when we approached Ahwaz, we found occupied by the Persian Army. The river passes round this point, rendering the position very strong; but at the same time a force driven out of it by an Enemy attacking at A, and being obliged to embark and retire down the river in boats or small steamers, would be exposed to the fire of batteries or musketry from the river banks from any point which an active Enemy might select. The advantages of this site for a cantonment for our Troops are, first, that our Commissariat and Stores, coming by land from Mohumra, could join our Camp without having to cross the river; second, the strength of the position.

It is impossible to form any idea of the healthiness of the place. There had been a good deal of rain when we were there, and the surface of the ground was very heavy; but there is no reason to suppose that Troops stationed here would be otherwise than healthy. At present the climate is very pleasant, the mornings delightful, and the days, though warm, quite bearable.

The Arabs furnished us with sheep in abundance, milk, ghee, &c.

The Karoon River has already been reported on by Captain Selby, and I found the Map drawn up by that Officer perfectly correct. The river is generally from 90 to 150 yards wide; a fine stream, with very rapid current; the banks for the first few miles after leaving Mohumra covered with date trees, afterwards with cypress or swamp poplar jungle for a hundred yards or so from the water's edge; the interior a barren desert. We passed a few Arab villages on the left bank at long intervals, and anchored for the night at two of them to get supplies. Excepting here, we did not see a single soul the whole way. The country on the right side appears an uninhabited wilderness.

The operations against the Enemy were conducted as follows, under the orders of Captain Renzie, I. N. At 3 A. M., 1st April, our little fleet left Koo Oomaira, an Arab village on the left bank, where we had remained during the night. Soon after daylight, we came in sight of Ahwaz, and found the Persian Army collected behind a ridge on the right bank—crowds of horsemen, apparently some guns on the ridge, and infantry, innumerable. Anchored at 1½ miles below the place. Some horsemen came down, but a rifle-shot sent them off at full gallop, and no one attempted to come very near again. Heard from the Arabs that Ahwaz was not occupied, and that the Troops that had been there had gone up the river the day before, frightened by the appearance of the steamers, and that nothing remained now but 30 horsemen; that they had no means of crossing, excepting by two boats and two canoes. It was therefore determined to land all our party (three hundred men), advance up the left bank upon Ahwaz, and endeavour to destroy the Enemy's depot of guns and ammunition, and, in the event of our finding that we had been deceived, or that

they were in force in the town, that we should turn once more into an armed reconnoissance, and return to our ships. Meanwhile we captured a Bugia, lying under the left bank, with a brass 12-pounder gun, which was taken on board.

At 11 A. M. the Troops commenced landing, and advanced at once in three columns, covered by skirmishers, the whole party being extended in such a way that they looked like a large body of men. Captain Hunt, 78th, commanded and arranged it all. Left column consisted of the Light Company 78th, divided into skirmishers and supports, both in one rank; the remainder of the Company in columns of threes, also in single ranks. The fifth Grenadiers and the other Company 78th formed centre and right columns in the same way. Two gun-boats were sent off in advance up the river, which took up positions within shell range of the Enemy's ridges, and open fire. The enemy apparently had some guns in position on the ridge, but the moment the gunners made their appearance, the gun-boats opened and drove them away; they consequently did not return a single shot, though they attempted a little musketry, which did no harm. In the meanwhile the Troops pushed on; the Persians still collected, though in reduced numbers, on the opposite bank of the river, at about 1,000 yards from us.

At 12 o'clock, the Troops approached the town, when the Arab Sheik came out, tendered submission, and informed our party that the Enemy were retreating, and with our glasses we saw a large army of 7,000 men, with a perfect swarm of Bakhtyaree horsemen and 5 or 6 guns, retiring from a very strong position before a body of 300 Infantry, three small river steamers, and three gun-boats. The Enemy retired in tolerable order covered by their horse, the Shahzada himself travelling in a green palanquin carriage, the wheel marks of which we had seen in several encamping grounds on the river. The town was filled with flour, wheat, barley, &c.; 55 mules and a horse were also found, besides 14 boxes of new flint muskets, tower mark, each containing ten. A party crossed the river, examined the Enemy's camp, and set fire to the remainder of their magazines. The Arabs had plundered it before we arrived, and had carried off the powder, ball, ammunition, and muskets, the cases of which we found; but the Enemy had left a great quantity of loose shot on the ground also, which could not be destroyed or carried away. Thus ended a very successful day. It was expected that, when our Troops reached the town, the Enemy would open fire with their guns from the ridge on the opposite bank, but that we should be able to hold our ground under cover of the houses and walls, until all the stores were destroyed or carried off; but in this little or no loss was anticipated; and as the Enemy were unable to cross the river and it was known that they had never had more than 800 men in the town, there was no great risk incurred in the move. As it was, the Enemy commenced their retreat exactly one hour from the time the first shell was fired from the gun-boats.

Notification.*Fort William, Civil Auditor's Office.**The 27th April 1857.*

The Government of India, in the Financial Department, under date the 20th March last, has ruled that all Settlement Officers shall in future be allowed to draw only one-half of the present rate of Travelling Allowances, when they halt at one spot beyond a fortnight, or a month, according as their duties are confined to one District or more. All such Officers, in submitting Bills for Travelling Allowance, will particularize the places at which they halt during the month, and the duration of such halt.

W. P. PALMER,
Civil Auditor.

Notification.*The 25th March 1857.*

With the sanction of the Governor General of India in Council, it is hereby declared that the Port of Rangoon, and the navigable River and Channels leading to that Port, are subject to Act No. XXII. of 1855.

The limits of the said Port of Rangoon are as follows:—

To the West.—A line drawn South from the boundary pillar at Kemmendine Point across the Rangoon River to the boundary pillar on the opposite bank.

To the East.—A line drawn from the point of land between the Pazeondoung Creek and the Pegu River to the boundary pillar at the point on the Dalla Shore called Dway-ngoo.

So much of the Pazeondoung Creek as lies South of a line drawn from a pillar at the East end of Kyozzeik village on the Eastern bank of the said Creek to a pillar opposite to it on the Western bank.

The limits of the said Port include to the North and South so much of the Rangoon River and of the shores thereof, and so much of the Pazeondoung Creek and the shores thereof as are within fifty yards of high-water mark spring tides.

The limits of the navigable River and Channels leading to the said Port, made subject to the said Act, are as follows:—

To the North.—The Port of Rangoon as above defined.

To the South.—A line drawn East and West from the Light Ship.

All parts of the Rangoon River between the said limits and below high water line at spring tides are subject to the said Act.

PORT RULES.

With the sanction of the Governor General of India in Council, the following Port Rules have been made and are hereby promulgated for general information and guidance:—

I. No vessel, if above 200 tons, shall enter within the limits of the Port of Rangoon, or

move from one place to another within the Port, between sun-set and sun-rise, without the special permission of the Master Attendant.

II. The Commanders of all vessels arriving at the Port of Rangoon are desired to enter correctly in the columns of the Report Book of the Master Attendant, as soon as presented to them, the information therein required regarding their vessels. They will also report in writing to the Master Attendant, twenty-four hours before their departure, the particulars noted in the form appended hereto.

III. All Commanders of vessels arriving at Rangoon shall anchor in such a position as the Master Attendant or his Assistant shall direct. All vessels above 100 tons burthen shall moor with two bower anchors and 30 fathoms of a Cable each way; and shall not move from their position without a Pilot, except with the express permission of the same authority.

IV. All Commanders of vessels shall have their jib and driver-booms rigged in when required by the Master Attendant, and shall strike their yards and masts if required to do so by, or by order of the same Officer.

V. Every ship or vessel within the Port of Rangoon shall remove any anchor or spar or other substance projecting from her side when required to do so by the Master Attendant, or other Officer of the Port.

VI. The Commanders of all vessels entering the Port of Rangoon with ballast on board shall, without delay, send to the Master Attendant a report in writing, stating the description of ballast on board, the quantity in tons, and the Port of shipment. Application must be made by the Commander to the Master Attendant for permission to tranship or land ballast, and no ballast shall be transhipped or landed except under the sanction of the Master Attendant, and only at such Stations as he shall direct.

VII. A free channel of 240 yards width is to be kept for ships moving up or down the River within the Port, and also free passages to Piers, Jetties, landing places, Wharves, Quays, Docks, and Moorings; and all vessels shall be bound to move when required to clear such channels or passages.

VIII. All vessels within the Port of Rangoon shall be moored or warped from place to place as required by the Master Attendant, or other Officer of the Port, and no vessel shall cast off a warp that has been made fast to her, to assist a vessel in mooring, without being required so to do by the Pilot or Officer in charge of the vessel mooring.

IX. No vessel within the limits of the Port of Rangoon shall boil any Pitch or Dammer on board, or shall draw off spirits by candle or other artificial lights.

X. All vessels within the limits of the channels leading to the Port of Rangoon shall, when at anchor, between sun-set and sun-rise, have a good light hoisted at the star-board fore-yard arm, and all vessels under weigh at night shall show a good light at the fore-royal or upper fore-mast head, and when under weigh in tow of a Steamer shall, in addition to the mast-head light, show a good

light at each fore-yard arm ; the Steamer showing the usual light prescribed by the Admiralty Regulations.
